VOLUME 39

NUMBER 1

iii Editorial Announcement

Review
Richard E. Lee Jr, Marcia R. Lee and Janet M. Strong-Gunderson 1 Insect cold-hardiness and ice nucleating active microorganisms including their potential use for biological control

P. Azambuja, D. Feder and E. S. Garcia 13 Effects of erythrocyte component diets on ecdysteroid production and ecdysis of *Rhodnius prolixus* larvae

Gerrit de Boer 17 Plasticity in food preference and diet-induced differential weighting of chemosensory information in larval *Manduca sexta*

Christophe Gadenne 25 Effects of fenoxycarb, juvenile hormone mimetic, on female sexual behaviour of the black cutworm, *Agrotis ipsilon* (Lepidoptera: Noctuidae)

Hanne Duve, Andrew J. Elia, Ian Orchard, Anders H. Johnsen and Alan Thorpe 31 The effects of calliFMRFamides and other FMRFamide-related neuropeptides on the activity of the heart of the blowfly *Calliphora vomitoria*

Karin Zupko, David Sklan and Yaacov Lensky 41 Proteins of the honeybee (*Apis mellifera* L.) body surface and exocrine gland secretions

David N. Karowe and Michael M. Martin 47 Determinants of diet quality: the effects of diet pH, buffer concentration and buffering capacity on growth and food utilization by larvae of *Manduca sexta* (Lepidoptera: Sphingidae)

Beatrice Lanzrein, Rita Wilhelm and Ruth Riechsteiner 53 Differential degradation of racemic and 10R-juvenile hormone III by cockroach (*Nauphoeta cinerea*) haemolymph and the use of lipophorin for long-term culturing of corpora allata

X. Vafopoulou and C. G. H. Steel 65 Release *in vitro* of prothoracicotropic hormone from the brain of male *Rhodnius prolixus* during larval–adult development: identification of novel and predicted release times

Brent V. Brodbeck , Russell F. Mizell III and Peter C. Andersen 73 Physiological and behavioral adaptations of three species of leafhoppers in response to the dilute nutrient content of xylem fluid

Yasuhito Shirai, Yasuo Aizono, Teruo Iwasaki, Akira Yanagida, Hajime Mori, Motoyuki Sumida and Fujiyoshi Matsubara 83 Prothoracicotropic hormone is released five times in the 5th-larval instar of the silkworm, *Bombyx mori*

Joseph Woodring, Marion Boulden, Subrata Das and Gerd Gäde 89 Studies on blood sugar homeostasis in the honeybee (*Apis mellifera*, L.)

NUMBER 2

Obituary 99

Takao Yoshida and Masahito T. Kimura 101 The photoperiodic clock of *Drosophila triauraria*: involvement of two processes in the night-length measurement system

Koichi Suzuki, Takehiko Nakamura, Toshio Yanbe, Morihisa Kurihara and Eiichi Kuwano 107 Termination of diapause in pharate first-instar larvae of the gypsy moth *Lymantria dispar japonica* by an imidazole derivative KK-42

C. G. Yu, B. Stay, S. Joshi and S. S. Tobe 111 Allatostatin content of brain, corpora allata and haemolymph at different developmental stages of the cockroach, *Diploptera punctata*: quantitation by ELISA and bioassay

Abner B. Lall 123 Action spectra for the initiation of bioluminescent flashing activity in males of twilight-active firefly *Photinus scintillans* (Coleoptera: Lampyridae)

P. Anderson, M. Hilker, B. S. Hansson, S. Bombosch, B. Klein and H. Schildknecht 129 Oviposition deterring components in larval frass of *Spodoptera littoralis* (Boisd.) (Lepidoptera: Noctuidae): a behavioural and electrophysiological evaluation

N. Miller and M. J. Lehane 139 Ionic environment and the permeability properties of the peritrophic membrane of *Glossina morsitans morsitans*

Keiichi Mimura 145 Effect of the visual environment on proteins and peptides in the developing brain of the fly, *Boettcherisca peregrina*

J. W. Wegener, I. Boekhoff, E. Tareilus and H. Breer 153 Olfactory signalling in antennal receptor neurones of the locust (*Locusta migratoria*)

Chih-Ming Yin, Hongyu Duan and John G. Stoffolano Jr 165 Hormonal stimulation of the brain for its control of oögenesis in *Phormia regina* (Meigen)

Marlies Vaz Nunes and Jim Hardie 173 A model for the photoperiodic counter in the aphid *Megoura viciae*

Josefa Moreno, Nicole Hawlitzky and Ricardo Jimenez 183 Effect of the juvenile hormone analogue fenoxycarb applied via the host on the parasitoid *Phanerotoma* (*Phanerotoma*) *ocularis* Kohl (Hym., Braconidae)

NUMBER 3

iii Editorial Announcement

Review
G. S. Boyan 187 Another look at insect audition: the tympanic receptors as an evolutionary specialization of the chordotonal system

David Scott and Ericka Williams 201 Sperm displacement after remating in *Drosophila melanogaster*

Neda M. Peeff, Ian Orchard and Angela B. Lange 207 The effects of FMRFamide-related peptides on an insect (*Locusta migratoria*) visceral muscle

M. D. Argyropoulou and G. P. Stamou 217 Respiratory activity of the Collembolan *Onychiurus meridiatus*

Takao Yoshida and Masahito T. Kimura 223 The photoperiodic clock of *Drosophila triauraria*: involvement of a circadian oscillatory system

John J. Brown, Makoto Kiuchi, Yooichi Kainoh and Satoshi Takeda 229 *In vitro* release of ecdysteroids by an endoparasitoid, *Ascogaster reticulatus* Watanabe

E. Plettner, K. N. Slessor, M. L. Winston, G. E. Robinson and R. E. Page 235 Mandibular gland components and ovarian development as measures of caste differentiation in the honey bee (*Apis mellifera* L.)

L. E. King and S. S. Tobe 241 Changes in the titre of a juvenile hormone III binding lipophorin in the haemolymph of *Diploptera punctata* during development and reproduction: functional significance

H. Ljungberg, P. Anderson and B. S. Hansson 253 Physiology and morphology of pheromone-specific sensilla on the antennae of male and female *Spodoptera littoralis* (Lepidoptera: Noctuidae)

Anna Liscia, Roberto Crnjar, Iole Tomassini Barbarossa, Sonia Esu, Patrizia Muroni and Rachel Galun 261 Electrophysiological responses of labral apical chemoreceptors to adenine nucleotides in *Culex pipiens*

Stephen P. Foster 267 Neural inactivation of sex pheromone production in mated lightbrown apple moths, *Epiphyas postvittana* (Walker)

NUMBER 4

D. Raubenheimer and G. Gäde 275 Compensatory water intake by locusts (*Locusta migratoria*): implications for mechanisms regulating drink size

T. Avelar 283 Egg size in *Drosophila*: standard unit of investment or variable response to environment? The effect of temperature

Jay A. Yoder, Richard J. Pollack, Andrew Spielman, Daniel E. Sonenshine and Donald E. Johnston 291 Secretion of squalene by ticks

L. C. Giojalas and S. Catalá 297 Changes in male *Triatoma infestans* reproductive efficiency caused by a suboptimal temperature

Coby Schal, Ann-Shyn Chiang, Edina L. Burns, Michal Gadot and Richard A. Cooper 303 Role of the brain in juvenile hormone synthesis and oöcyte development: effects of dietary protein in the cockroach *Blattella germanica* (L.)

P. M. Klein, M. W. Lorenz, Huang Donglin and K. H. Hoffmann 315 Age dependency and regulatory properties of juvenile hormone III biosynthesis in adult male crickets, *Gryllus bimaculatus*

Zhixiang Wang, Xinmei Chen and Norbert H. Haunerland 325 Flight muscle development in juvenile and adult forms of the desert locust, *Schistocerca gregaria*

Takashi Sugawara 335 Oviposition behaviour of the cricket *Teleogryllus commodus*: mechanosensory cells in the genital chamber and their role in the switch-over of steps

Angela B. Lange, Ian Orchard and Danuta Konopinska 347 The effects of selected proctolin analogues on contractions of locust (*Locusta migratoria*) oviducts

Kiyoshi Hiruma, Angie Norman and Lynn M. Riddiford 353 A neuroendocrine factor essential for cuticular melanization in the tobacco hornworm, *Manduca sexta*

NUMBER 5

Thomas Schmidt, Yves Choffat, Stephan Klauser and Eric Kubli 361 The *Drosophila melanogaster* sex-peptide: a molecular analysis of structure–function relationships

K. Crailsheim, N. Hrassnigg, R. Gmeinbauer, M. J. Szolderits, L. H. W. Schneider and U. Brosch 369 Pollen utilization in non-breeding honeybees in winter

Gerd Gäde 375 Structure–activity relationships for the lipid-mobilizing action of further bioanalogues of the adipokinetic hormone/red pigment-concentrating hormone family of peptides

De-Mao Chen and William S. Stark 385 Effects of temperature on visual receptors in temperature-sensitive paralytic *shibire* (shi^{ts}) mutants of *Drosophila*

Angela B. Lange and Peter K. C. Tsang 393 Biochemical and physiological effects of octopamine and selected octopamine agonists on the oviducts of *Locusta migratoria*

M. S. Mayer 401 Responses of three antennal specialist neurons of male *Trichoplusia ni* (Hübner) to sex pheromone components at and above naturally emitted levels

Jean-Claude Meyran, Evelyne Sellem and François Graf 413 Variations in haemolymph ionized calcium concentrations in the crustacean *Orchestia cavimana* during a moult cycle

August Dorn, Gabriele Stern-Schneider and Elke Küchler 419 Mesadenes maturation and its hormonal control in the milkweed bug, *Oncopeltus fasciatus*

Jay A. Yoder, Richard J. Pollack and Andrew Spielman 429 An ant-diversionary secretion of ticks: first demonstration of an acarine allomone

Yutaka Kawaguchi, Yutaka Banno, Katsumi Koga, Hiroshi Doira and Hiroshi Fujii 437 Polygonal patterns on eggshells of giant egg mutant and large eggs induced by 20-hydroxyecdysone in *Bombyx mori*

Richard E. Lee Jr, John J. McGrath, R. Todd Morason and Ronald M. Taddeo 445 Survival of intracellular freezing, lipid coalescence and osmotic fragility in fat body cells of the freeze-tolerant gall fly *Eurosta solidaginis*

NUMBER 6

Review
S. W. Nicolson 451 The ionic basis of fluid secretion in insect Malpighian tubules: advances in the last ten years

A. J. Elia, V. A. TeBrugge and I. Orchard 459 The pulsatile appearance of FMRFamide-related peptides in the haemolymph and loss of FMRFamide-like immunoreactivity from neurohaemal areas of *Rhodnius prolixus* following a blood meal

Zhiwei Wang and K. G. Davey 471 The role of juvenile hormone in vitellogenin production in *Rhodnius prolixus*

Margaret B. Wheeler, Gwendy S. Stuart and Kenneth D. Hapner 477 Agglutinin mediated opsonization of fungal blastospores in *Melanoplus differentialis* (Insecta)

Astrid Köck, Anna-Katharina Jakobs and K. Kral 485 Visual prey discrimination in monocular and binocular praying mantis *Tenodera sinensis* during postembryonic development

Seiji Tanaka 493 Allocation of resources to egg production and flight muscle development in a wing dimorphic cricket, *Modicogryllus confirmatus*

E. S. Ratna, G. Cotton and A. R. McCaffery 499 Long-term effects of fenoxycarb upon reproductive activity and fecundity in adult female *Periplaneta americana*

Joseph C. Dickens, J. H. Visser and J. N. C. Van der Pers 503 Detection and deactivation of pheromone and plant odor components by the beet armyworm, *Spodoptera exigua* (Hübner) (Lepidoptera: Noctuidae)

Angela B. Lange 517 The association of proctolin with the spermatheca of the locust, *Locusta migratoria*

Jannette D. Mitchell, P. H. Hewitt and T. C. De K. van der Linde 523 Critical thermal limits and temperature tolerance in the harvester termite *Hodotermes mossambicus* (Hagen)

G. P. Stamou and G. D. Iatrou 529 Studies on the respiratory metabolism of *Glomeris balcanica* (Diplopoda, Glomeridae)

NUMBER 7

Darrin S. Good 537 Evolution of behaviours in *Drosophila melanogaster* in high temperatures: genetic and environmental effects

Paul I. Ward and Elisabeth Hauschteck-Jungen 545 Variation in sperm length in the yellow dung fly *Scathophaga stercoraria* (L.)

Minoru Kobayashi and Hajime Ishikawa 549 Breakdown of indirect flight muscles of alate aphids (*Acyrthosiphon pisum*) in relation to their flight, feeding and reproductive behavior

Jin-Tun Lin 555 Identification of photoreceptor locations in the compound eye of *Coccinella septempunctata* Linnaeus (Coleoptera, Coccinellidae)

Lirim Shemshedini and Thomas G. Wilson 563 Juvenile hormone binding proteins in larval fat body nuclei of *Drosophila melanogaster*

Seiji Tanaka, Takumi Hakomori and Eishi Hasegawa 571 Effects of daylength and hopper density on reproductive traits in a Japanese population of the migratory locust, *Locusta migratoria* L.

F. Michael Barrett, Ian Orchard and Victoria TeBrugge 581 Characteristics of serotonin-induced cyclic AMP elevation in the integument and anterior midgut of the blood-feeding bug, *Rhodnius prolixus*

Gerald Kastberger and Klaus Schuhmann 589 Ocellar occlusion effect on the flight behavior of homing honeybees

Nicole A. Ryan and Richard D. Karp 601 Stimulation of hemocyte proliferation in the American cockroach (*Periplaneta americana*) by the injection of *Enterobacter cloacae*

Gordon C. Edwards, Ralph P. Braun and Gerard R. Wyatt 609 Induction of vitellogenin synthesis in *Locusta migratoria* by the juvenile hormone analog, pyriproxyfen

Keikichi Uchida 615 Balanced amino acid composition essential for infusion-induced egg development in the mosquito (*Culex pipiens pallens*)

NUMBER 8

Declan W. Ali, Ian Orchard and Angela B. Lange 623 The aminergic control of locust (*Locusta migratoria*) salivary glands: evidence for dopaminergic and serotonergic innervation

Richard I. Samuels and Stuart E. Reynolds 633 Moulting fluid enzymes of the tobacco hornworm, *Manduca sexta*: inhibitory effect of 20-hydroxyecdysone on the activity of the cuticle degrading enzyme MFP-1

K. W. Beyenbach, A. Oviedo and D. J. Aneshansley 639 Malpighian tubules of *Aedes aegypti*: five tubules, one function

C. Höller, H. Bargen, S. B. Vinson and H. J. Braune 649 Sources of the marking pheromones used for host discrimination in the hyperparasitoid *Dendrocerus carpenteri*

K. A. Johnston, J. A. Gatehouse and J. H. Anstee 657 Effects of soybean protease inhibitors on the growth and development of larval *Helicoverpa armigera*

Felicita Scapini, Alessandro Mascagni and Alessandra Sforzi 665 Zonal recovery and orientation in respect to various stimuli of *Heterocerus fenestratus* Thunberg, 1784 (Coleoptera, Heteroceridae)

Brian A. Stockhoff 677 Ontogenetic change in dietary selection for protein and lipid by gypsy moth larvae

John R. B. Lighton, Tsukasa Fukushi and Rüdiger Wehner 687 Ventilation in *Cataglyphis bicolor*: regulation of carbon dioxide release from the thoracic and abdominal spiracles

Klaus Richter 701 Brain factors control the activity of prothoracic gland nerves in the cockroach *Periplaneta americana*

NUMBER 9

D. Abed, P. Cheviet, J. P. Farine, O. Bonnard, J. L. Le Quéré and R. Brossut 709 Calling behaviour of female *Periplaneta americana*: behavioural analysis and identification of the pheromone source

Hemendra Mulye and Roger Gordon 721 Effects of fenoxycarb, a juvenile hormone analogue, on lipid metabolism of the eastern spruce budworm, *Choristoneura fumiferana*

Preeti M. Ismail and Cedric Gillott 729 Ecdysteroid levels in haemolymph and reproductive organs of fourth and fifth nymphal instar and adult *Melanoplus sanguinipes*

Kenneth B. Storey, Thomas A. Churchill and Denis R. Joanisse 737 Freeze tolerance in hermit flower beetle (*Osmoderma eremicola*) larvae

Richard Wall 743 The reproductive output of the blowfly *Lucilia sericata*

F. Eggenberger and M. Rowell-Rahier 751 Production of cardenolides in different life stages of the chrysomelid beetle *Oreina gloriosa*

I. Y. Rauschenbach, L. I. Serova, I. S. Timochina, N. A. Chentsova and L. V. Schumnaja 761 Analysis of differences in dopamine content between two lines of *Drosophila virilis* in response to heat stress

B. Tran, J. Darquenne and J. Huignard 769 Changes in responsiveness to factors inducing diapause termination in *Bruchus rufimanus* (Boh.) (Coleoptera: Bruchidae)

Michel Cusson, Koichiro J. Yagi, Stephen S. Tobe and Jeremy N. McNeil 775 Identification of release products of corpora allata of male and female armyworm moths, *Pseudaletia unipuncta*

Kemet D. Spence and Michael Y. Kawata 785 Permeability characteristics of the peritrophic membranes of *Manduca sexta* larvae

Eun Ju Park, John P. Burand and Chih-ming Yin 791 The effect of baculovirus infection on ecdysteroid titer in gypsy moth larvae (*Lymantria dispar*)

P. J. James, M. J. Kershaw, S. E. Reynolds and A. K. Charnley 797 Inhibition of desert locust (*Schistocerca gregaria*) Malpighian tubule fluid secretion by destruxins, cyclic peptide toxins from the insect pathogenic fungus *Metarhizium anisopliae*

NUMBER 10

Yoshiaki Tanaka and Satoshi Takeda 805 Ecdysone and 20-hydroxyecdysone supplements to the diet affect larval development in the silkworm, *Bombyx mori*, differently

Preeti M. Ismail, Sheikh M. Ismail and Aparna Dutta-Gupta (Ray) 811 Ecdysteroid mediated uptake and secretion of larval haemolymph proteins by the male accessory reproductive glands of *Chilo partellus*

Mary S. Cupp, E. W. Cupp and Frank B. Ramberg 817 Salivary gland apyrase in black flies (*Simulium vittatum*)

Allen C. Cohen 823 Organization of digestion and preliminary characterization of salivary trypsin-like enzymes in a predaceous heteropteran, *Zelus renardii*

Emile Van Handel 831 Fuel metabolism of the mosquito (*Culex quinquefasciatus*) embryo

T. S. Adams and J. W. Gerst 835 Effect of diet on vitellogenin, vitellin and ecdysteroid levels during the second cycle of oögenesis in the housefly, *Musca domestica*

Anthony J. Zera, Carrie A. Borcher and Sarah B. Gaines 845 Juvenile hormone degradation in adult wing morphs of the cricket, *Gryllus rubens*

S. Trumper and S. J. Simpson 857 Regulation of salt intake by nymphs of *Locusta migratoria*

Andreas Wiesner and Peter Götz 865 Silica beads induce cellular and humoral immune responses in *Galleria mellonella* larvae and in isolated plasmatocytes, obtained by a newly adapted nylon wool separation method

Maria Julia Szolderits and Karl Crailsheim 877 A comparison of pollen consumption and digestion in honeybee (*Apis mellifera carnica*) drones and workers

Pedro Guilherme Fernandes-da-Silva and Fernando Sérgio Zucoloto 883 The influence of host nutritive value on the performance and food selection in *Ceratitis capitata* (Diptera, Tephritidae)

Motoko Ikeda, Zhi-Hui Su, Hiroyuki Saito, Kunio Imai, Yukihiro Sato, Minoru Isobe and Okitsugu Yamashita 889 Induction of embryonic diapause and stimulation of ovary trehalase activity in the silkworm, *Bombyx mori*, by synthetic diapause hormone

Helena Mullett, Norman A. Ratcliffe and Andrew F. Rowley 897 Analysis of immune defences of the wax moth, *Galleria mellonella*, with anti-haemocytic monoclonal antibodies

NUMBER 11

Review
A. J. Mordue (Luntz) and A. Blackwell 903 Azadirachtin: an update

Jules Silverman and Donald N. Bieman 925 Glucose aversion in the German cockroach, *Blattella germanica*

P. A. Paranagama, H. Lovell, A. A. Denholm, S. V. Ley, J. D. Connolly and R. H. C. Strang 935 Uptake, retention, metabolism and excretion of [22,23-$^3H_2$]dihydroazadirachtin in *Schistocerca gregaria*

A. Leyssens, E. Van Kerkhove, S.-L. Zhang, R. Weltens and P. Steels 945 Measurement of intracellular and luminal K^+ concentrations in a Malpighian tubule (*Formica*). Estimate of basal and luminal electrochemical K^+ gradients

Rudolf Gmeinbauer and Karl Crailsheim 959 Glucose utilization during flight of honeybee (*Apis mellifera*) workers, drones and queens

Belgaum S. Thyagaraja, Dale B. Gelman, Edward P. Masler, Thomas J. Kelly, Robert A. Bell and Richard B. Imberski 969 A role for the terminal abdominal segment in the larval and pupal molts of the gypsy moth *Lymantria dispar* L: discovery of a developmental control center in the anal papilla pouch

Claudia Maria Canato and Fernando Sergio Zucoloto 981 Diet selection by *Ceratitis capitata* larvae (Diptera, Tephritidae): influence of the rearing diet and genetic factors

K. L. Horwath and N. E. Stamp 987 Use of dietary rutin to study molt initiation in *Manduca sexta* larvae

NUMBER 12

Andrea P. Woodhead, Wendy Y. Asano and Barbara Stay 1001 Allatostatins in the haemolymph of *Diploptera punctata* and their effect *in vivo*

Helmut Schmitz and Lutz Th. Wasserthal 1007 Antennal thermoreceptors and wing-thermosensitivity of heliotherm butterflies: their possible role in thermoregulatory behavior

Toru Shimizu and Sinzo Masaki 1021 Injury causes microptery in the ground cricket, *Dianemobius fascipes*

Mitchell S. Dushay and Nancy E. Beckage 1029 Dose-dependent separation of *Cotesia congregata*-associated polydnavirus effects on *Manduca sexta* larval development and immunity

Gernot Wendler and Robert Vlatten 1041 The influence of aggregation pheromone on walking behaviour of cockroach males (*Blattella germanica* L.)

F. Sehnal and P. J. Bryant 1051 Delayed pupariation in *Drosophila* imaginal disc overgrowth mutants is associated with reduced ecdysteroid titer

A. Leyssens, S.-L. Zhang, E. Van Kerkhove and P. Steels 1061 Both dinitrophenol and Ba^{2+} reduce KCl and fluid secretion in Malpighian tubules of *Formica polyctena*: the role of the apical H^+ and K^+ concentration gradient

M. Stankiewicz, M. Pelhate, C. O. Malécot and A. Duval 1075 Transient K^+ current and periaxonal potassium accumulation in the giant axon of the cockroach *Periplaneta americana*

Václav Němec, Dalibor Kodrík, Svatopluk Matolin and Hans Laufer 1083 Juvenile hormone-like effects of retinoic acid in insect metamorphosis, embryogenesis and reproduction

Qi-jian Sun 1095 Response properties of descending object motion-detecting neurones in the ventral nerve cord of the common brown butterfly, *Heteronympha merope*
